H&S Software

Product

We digitise all your health and safety processes for complete, easy, and efficient compliance. It incorporates company-integrated management system documentation, time and attendance, employee inductions, toolbox talks and training, Safe Systems of Work (SSoW), Risk Assessment Method Statements (RAMS) and briefing evidence, Point of Work Risk Assessment (PoWRA), site inspections/audits and plant and tools checks.

POWERFUL, ROBUST AND FLEXIBLE APPLICATIONS

The software provides a single solution encompassing operational and health and safety compliance.

EASY SET UP AND DEPLOY

Cloud based Health and Safety Software that works on Desktop and Mobile using a modern browser.

POWERFUL, ROBUST AND FLEXIBLE APPLICATIONS

Streamline processes aid competence tracking, risk assessment method statements and site/plant/tool inspections - and more!

Smarter safety management solutions
Human resources and training

▶ Qualification tracking

▶ Toolbox talks and training

Access company policies

Training matrix - database of competency evidence

**A suite of electronic toolbox talks and the ability to generate further company-specific updates and training**

SSoW & RAMS

▶ Safe System of Works (SSoW) / Risk Assessment Method Statements (RAMS) and Briefing Evidence

Build standard operating procedure and risk assessment database - include images and vidoes for better comprehension

Generate Safe Systems of Work from pre-defined standard operating procedures

Pick from pre-defined risk assessments and COSHH database
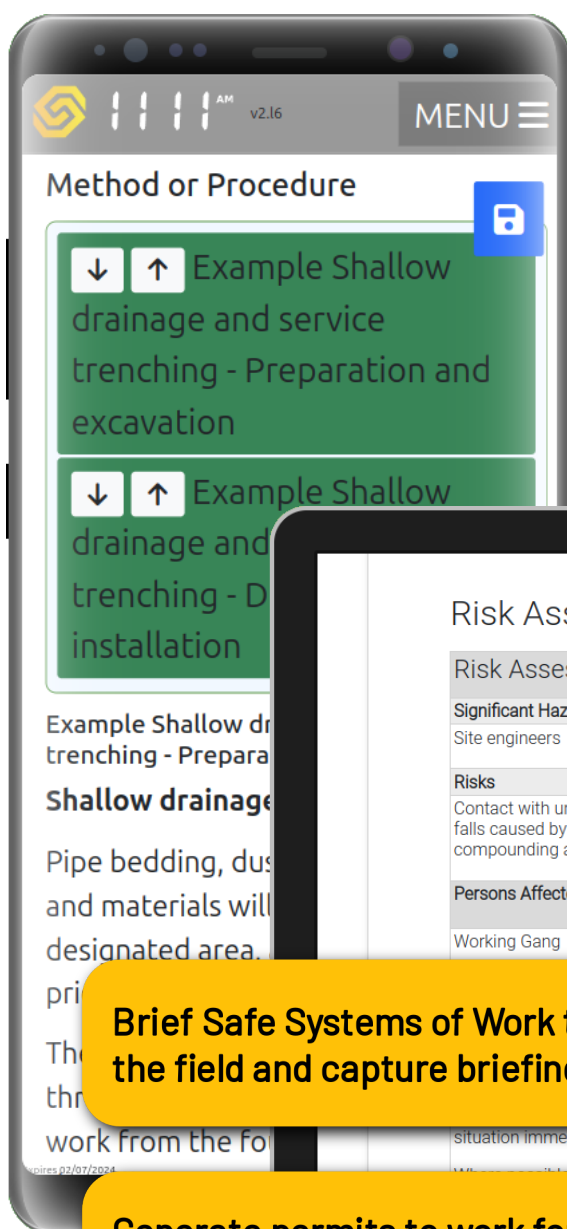

Brief Safe Systems of Work to the team in the field and capture briefing attendance

Generate permits to work for high-risk activities; e.g. breaking ground, confined space entry, hot works

Point of Work Risk Assessment / Daily brief

▶ Efficiently documenting communication evidence with remote teams

Field teams can populate simplified Point of work risk assessents live on site

Brief PoWRA to the team in the field and capture briefing attendance

Site inspections and audits

▶ Create and complete site inspections and record them on your phone/tablet, adding images, emails, and PDFs to show compliance

▶ Complete more thorough and formal site audits in the same way
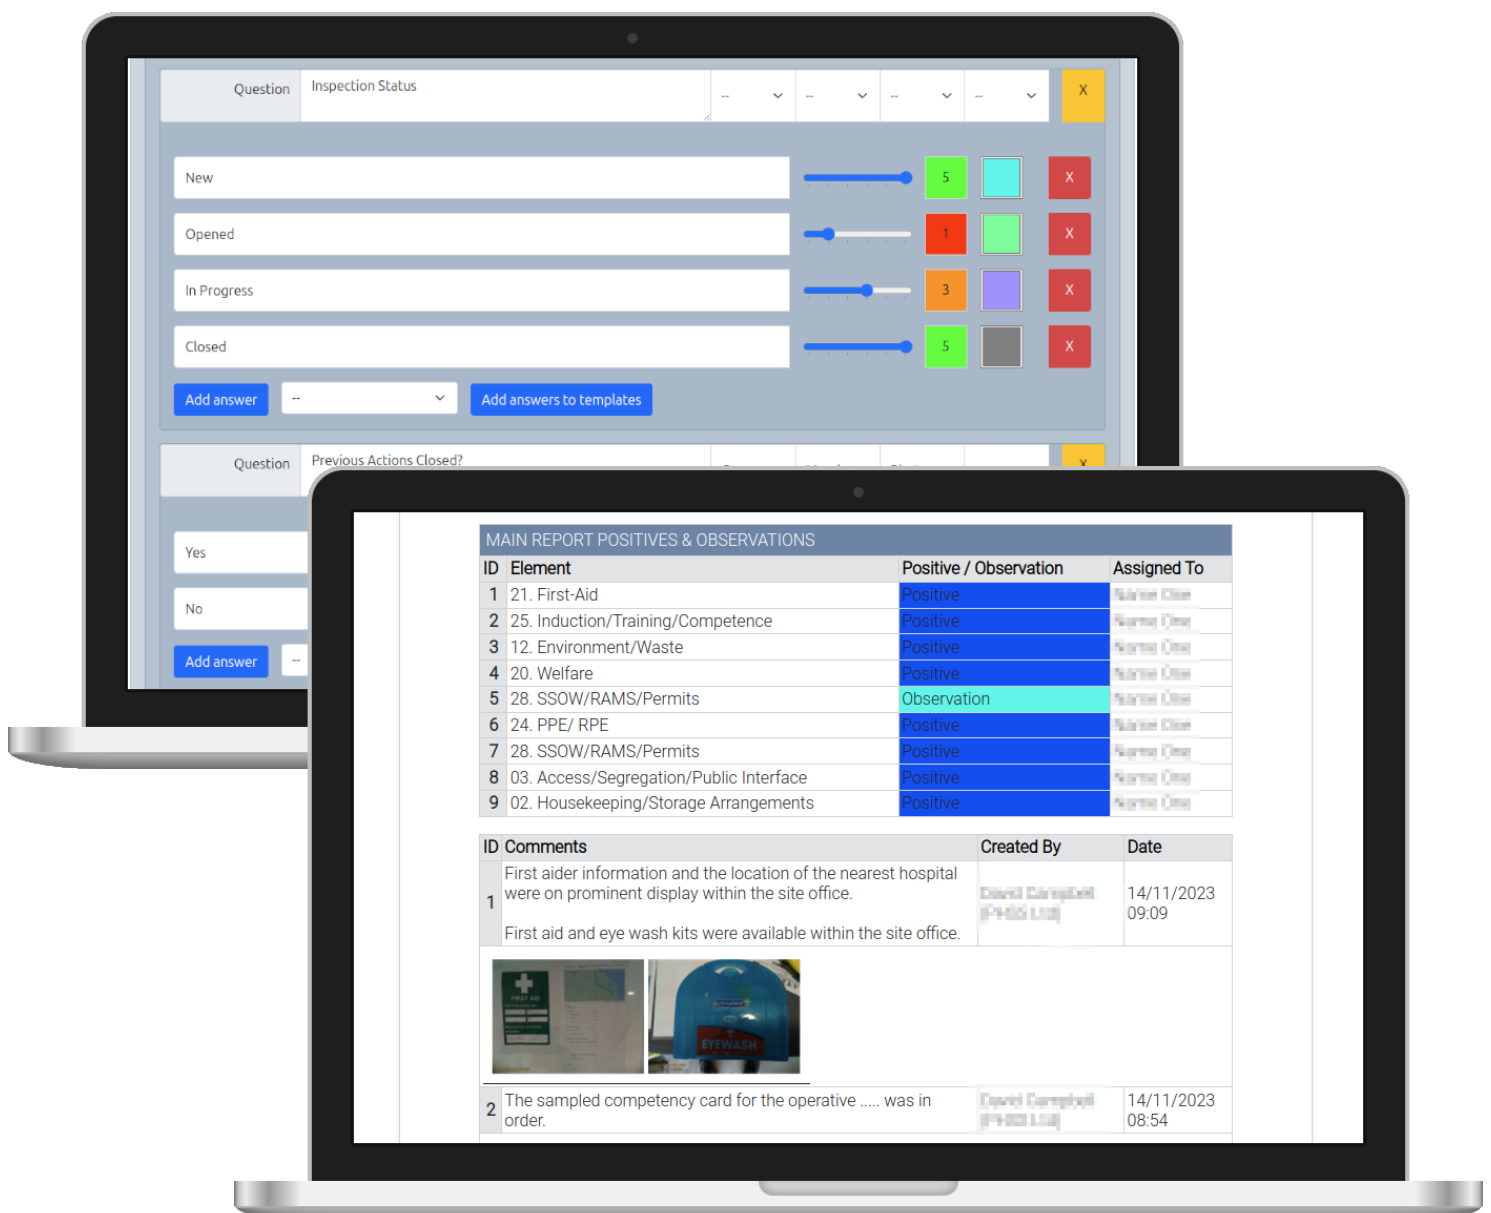

Asset management

▶ Tools, equipment, plant, materials

▶ Control of legal documents/certificates

▶ PPE allocation

Single point management of assets, plant and tools. Ability to allocate assets between sites or individuals and to upload and store certificates
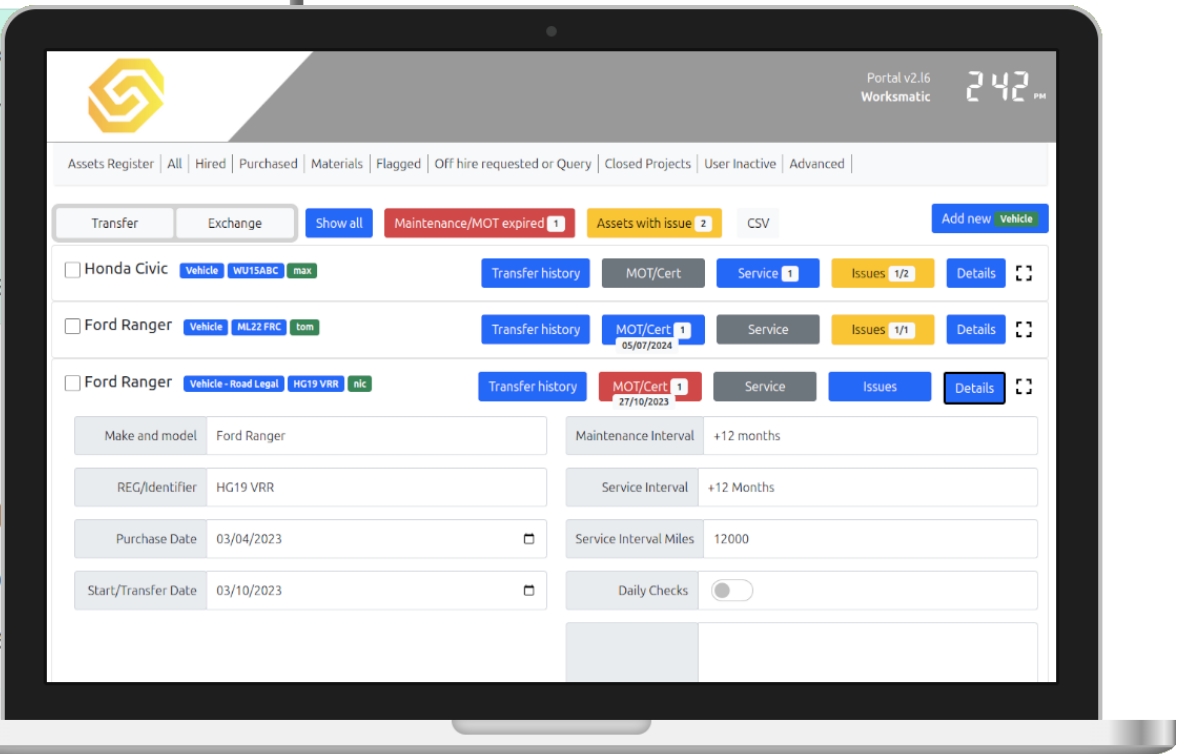

Digital pre-use checks created to simplify compliance
DAVIS GROUNDWORKS   **Smarter safety management solutions**

Accident reporting

▶ Report accidents and incidents from any device and location

▶ Real-time notifications and visibility of all accidents and incidents

▶ Complete robust follow-up investigations and monitor trends and statistics

▶ Export accident overview to PDF or share live links to reports
